

ENVIRO-KLEEN 2000 – TECHNICAL DATA SHEET

A Multi-purpose Biological Cleaner

Where to Use

Enviro-Kleen 2000 is a concentrated biological multi-purpose liquid cleaner which can be used on glass surfaces, building exteriors and interiors, aeroplanes, floors of institutional areas, warehouses, dishes, pots, pans etc. Enviro-Kleen 2000 produces a high suds level and is fortified with water softening agents for hard water areas.

Special Benefits

Leaves no film

Enviro-Kleen 2000 has an amazing degreasing and soil & dirt removing action. It removes the toughest greasy spots on the painted, non-painted, glass and floor surfaces. Its multitude of soil suspending suds actually lifts all dirt and soil particles away from surfaces to be cleaned. Simple rinsing removes all greases and other films along with dirt, soil and food particles, resulting in the removal of films, no cloudiness, and just sparkling cleanliness.

Dissolves instantly in water

Enviro-Kleen 2000 is a concentrated formulation for higher economy on shipping cost and storage spacing. It is formulated to dissolve instantly, even where hard water is a problem, creating a profusion of suds as soon as the water begins to run.

Requires no wiping

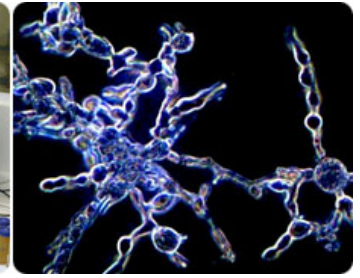

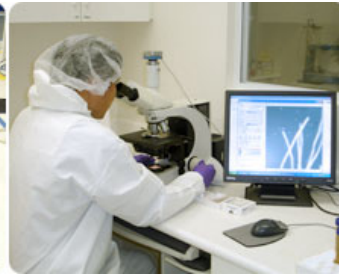

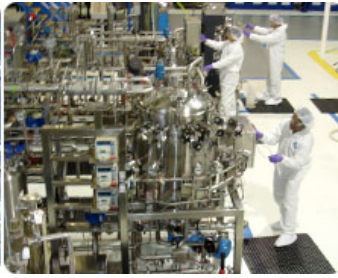

While Enviro-Kleen 2000 solubilizes the offending minerals that harden water, it dissolves, emulsifies and suspends all greases and dirt residues that may be present. It does not leave any streaks or spots on the treated surfaces. If rinsing is complete, no wiping is necessary.

Gentle & soft on hands

Careful study of cleaning action in Enviro-Kleen 2000 has made possible the introduction of a "lotionalizing" agent which makes Enviro-Kleen 2000 extremely gentle without reducing its cleaning power. Enviro-Kleen 2000 is kind to the most delicate skin.

Economical

Enviro-Kleen 2000 is a non-toxic biological product. Besides being environment friendly, it is economical to use since one part of Enviro-Kleen 2000 is to be mixed with 1-5 parts of water depending upon application and level of cleanliness required.

ENVIRO-KLEEN 2000 – TECHNICAL DATA SHEET

Pleasant fragrance Unlike many other institutional cleaning products, Enviro-Kleen 2000 has a particularly pleasant and food grade fragrance in its formulation that eliminates all the unpleasant odours generated by grease, dirt, soil and food particles during cleaning process.

How to Use Add one part of Enviro-Kleen 2000 to 1-5 parts of water depending upon application and level of cleanliness required. Simply apply the product directly onto the surfaces by spraying or by manual mopping with a foam or scrubber. Leave it for 5 minutes and then pressure wash the surface with water to remove all the dirt.

Properties **Application:** biological liquid multi-purpose cleaner

Colour: blue

Odour: lemon

pH Factor: 7.5 – 8.0

Flammability: non-flammable

Toxicity: Non-toxic

Composition: biodegradable surfactants and bio-emulsifiers, enzymes, and hardness chelants.

Packaging Enviro-Kleen 2000 is available in 205 liter drums and 1000 liter tote tanks.
